INSTITUTE FOR ALTERNATIVE HEALTH CONSULTING

**successfully
Self Employed
as AMB®
franchise partner!**

The concept

There is no diet that suits everybody. The AMB® weight loss program is therefore tailored to the individual.

Food can send wrong nutritional information to the body and this can cause blockages which irritate the metabolism and can slow down a person's weight loss or make it impossible.

Utilising the AMB®-Method these food types can be detected and the respective wrong nutritional information erased. An individual diet recommendation accompanies the test and together with the AMB®-Bioresonance therapy leads to successful and stable weight loss.

AMB®-Therapy

- AMB-Method: Healthy weight-loss method without enduring hunger or suffering from the yo-yo effect. Helps with food intolerances and prevents food cravings
- AMB-MED: Medical bioresonance treatment of various diseases. Helps with: migraine, eczema, psoriasis, etc.
- AMB for pollen allergies: Painless allergy treatment and prevention. Without the use of drugs
- RMB-smoke free with bioresonance: Reduces withdrawal symptoms, and reduces the craving for nicotine

The AMB® Methode combines the alternative-medical method Bioresonanz with nutritional science.

The Success Story

More than 20 years ago, Dr. Alfred and Ria Klabuschnigg founded the Institute for Alternative Health Consulting. Dr. Alfred Klabuschnigg is a certified General Practitioner, Pediatrician and Holistic Practitioner and his wife is a Nutrition and Health Consultant.

Originally the institute conducted alternative diagnostic methods and alternative therapies that included: Brain Scanning, O2-Ion-Therapy, Magnetic Field Therapy and Colon-Hydro-Therapy, as well as Bioresonance, all of which are successfully applied today.

As a result of the achievements it became obvious that Bioresonance is a helpful method to support weight loss programs.

Ria Klabuschnigg developed the "AMB®-Method", which is currently utilised successfully in more than 30 institutes in Austria, Germany and in Iraq.

Experience report

**Hannelore Enderlin -
Franchisee
Am Graben 18
7000 St. Georgen**

Because my job as a bank teller did not really make me happy, I decided 5 years ago, to start my own business as an AMB® franchisee - a big step which I've never regretted!

15 years earlier, as an AMB® client, I have changed my diet and lost 33 kg. Positive side effects have been an improvement in my skin's appearance and the absence of migraine attacks. This personal experience has been the impetus for me to pick the AMB® - franchise system.

Advantages of this proven and science-based approach allow me to work independently with a flexible time schedule which, being a mother, is very important to me.

Furthermore, the AMB® - Franchise system offers me the opportunity of a very good income at reasonable cost.

However, most fulfilling is the work with customers who celebrate great weightloss successes. My personal performance and the efficiency of AMB® - method is confirmed by their satisfaction again and again.
